CASIO SPORT

The portable training partner:
The PHYS CHR-100 and CHR-200 models with chest belt show competitive runners their heart rate and have a built-in fitness monitor. When transmitting the data from the chest to the watch, the CHR-200 models use a personal code to prevent any outside data from being transmitted along with it. The chest belt is water-resistant – up to 3 bar.

The pulse of time: The CHF-100 model shows women runners their heart rate. Data is transmitted to the watch via the chest strap. Its high wearing comfort and easy handling when putting it on are what make it stand out. So every woman runner can optimise her training very easily. Moreover, the chest strap is water-resistant up to 3 bar.

1.000 hrs

CR2032

Exactly the right call for a referee: this watch, with special referee functions including simultaneous display of playing and injury time, preset values for different playing times, a stop watch with variable stop intervals, vibration alarm, large-sized display, and more.
